PROFILE ME

As a computer science student deeply enthusiastic about coding and solving challenges, I am eager to put my technical skills to practical use. I am currently in search of opportunities to apply my knowledge and expertise to real-world projects where I can collaborate with teams and continuously evolve as a developer.

SKILLS

- **Programming Languages:**   Java, Javascript, C
- **Web Development:**   HTML, CSS, JavaScript, React, Nodejs, Bootstrap
- **Database Management:**   SQL, MongoDB, Firebase
- **Tools and Frameworks:**   Visual Studio Code, IntelliJ Idea, Git
- **Problem-Solving:**   Problem-solving skills, with a focus on using Data Structure

EXPERIENCE

JAVA DEVELOPER INTERN / EMPYREAM CODE CRAFT
July 2023 - August 2023

- Working independently on the development of a user-friendly ATM interface application.
- Demonstrated exceptional self-motivation, time management, and problem-solving skills throughout the virtual internship, consistently meeting project deadlines and exceeding expectations.

FULL STACK DEVELOPER INTERN / BHARAT INTERN
June 2023- July 2023

- I worked on building a website that helps people manage their content. Imagine it as a place where you can write and edit things online.
- My main job was making the website look good and easy to use. I used technologies like HTML, CSS, and JavaScript for this. These are like tools that help make websites pretty and interactive.

WEB DEVELOPER INTERN/ TECHNOHACK EDUTECH
August 2023- September2023

- As a Web Developer Intern at Technohack, I had the opportunity to work on an exciting project: building a video conferencing website that relied on APIs. This website allowed people to have online video meetings and discussions, like virtual conferences.
- My role primarily involved working on the website's development. I used various web technologies, including HTML, CSS, and JavaScript, to create the site's user interface.

EDUCATION

BACHELOR OF TECHNOLOGY   (2020-2024)

Bansal Institute of Engineering and Technology, Lucknow, Uttar Pradesh

PROJECTS

Travel Guide Website

- Develop and maintain a database architecture to store vast amounts of travel-related information, including user-generated content, reviews, and destination data.
- An intuitive and responsive user interface that appeals to travelers of all backgrounds and interests

College Placement website

- A website that has a clean and easy-to-navigate User Interface and consistent color scheme, typography, and layout to maintain a professional appearance.
- I work as a frontend developer and UI designer in team.

CERTIFICATION

Web Development | London App Brewery

- During the training, I improved my HTML, CSS, Javascript, Node, React, MongoDB

Core Java | CODEGRIP(A unit of Ideaquest Tech Pvt Ltd)

- During the training, I improved my concepts of OOPs and enhanced my problem-solving skills.

React Development | ZTM {Udemy}

- During the training, I improved my concepts of React, Redux, and Hooks and enhanced my problem-solving skills in frontend development.
